

Svetlana Egorova

Tel Aviv, Israel • +972 53-550-2916 • egorova.svetlana.aleksan@gmail.com | [LinkedIn](#) | [Portfolio](#)

Product leader with 9+ years of experience building and scaling complex B2B products, portfolios and product organisations, with ownership across strategy, P&L, monetisation, experimentation and go-to-market. Led a €100–120M portfolio, grew market share from 20% to 30%, delivered products with >10x ROI, and scaled a product organisation from 4 to 96 people. Strong in turning ambiguous customer and business problems into measurable growth through data-driven decisions, technical product leadership and cross-functional execution.

PROFESSIONAL EXPERIENCE

Independent Product & AI Consultant, June 2026 – present

- Built a price-parity forecasting model for a chocolate factory, validating pricing predictions through automated parsing of publicly available market data.
- Designed and delivered an applied AI programme for an online sales team, covering ML vs LLMs, RAG architectures and AI agent development.

Alfa-Bank

One of the largest digital private banks in Eastern Europe, serving ~27 million retail and business customers. Enterprise-scale organisation with 20,000+ employees, cloud-native microservice architecture, and hundreds of cross-functional product teams building digital banking products across web, mobile, payments, lending, and SME platforms.

Head of Product, March 2021 - June 2026

- Defined and scaled an industry-based SME strategy from a single-segment pilot across six verticals —> grew market share from 20% to 30%.
- Owned commercial performance and investment priorities for a €100–120M SMB portfolio — shifted to subscription bundling, lifting ARPU +224% in eCommerce and +154% in restaurants.
- Embedded hypothesis-driven experimentation across the product group — research and A/B testing informed subscription design that increased month-4 retention from 47% to 81%.
- Owned portfolio roadmap, go-to-market and investment prioritisation across 30+ industry-specific bundles, with eCommerce selected as the flagship vertical, reaching 35% spontaneous awareness and 35% cost-to-income ratio.
- Turned a single-segment pilot into a repeatable operating model — embedded industry solutions across digital, onboarding, call-centre and frontline channels at 30%+ penetration.
- Partnered with C-level to align industry strategy with the company goal of reaching 1M business clients — used market-share growth as the core portfolio growth metric.
- Scaled the product organisation from 4 to 96 across three business units — developed three managers into business-unit heads and six PMs into product leads.

Product Manager, July 2017 - March 2021

- Owned end-to-end product strategy, P&L and outcome-based roadmap for business payments across Internet and Mobile Banking, prioritising investments by scale and impact, growing active paying clients 24%, from 371K to 461K.
- Identified counterparty risk as a customer pain point through customer discovery, then built and scaled an ML-based B2B matching product from concept to 50K+ monthly active businesses, delivering >10x ROI.
- Used control-group testing to validate the ML-powered recommendation engine, demonstrating a 17% reduction in account-freeze incidents and an 8% increase in customer balances held on the platform.
- Partnered with engineering and architecture to productionise ML scoring in Python after the Java-based implementation proved ~1,000x slower, securing approval for a rare production architecture exception.
- Redesigned the payment confirmation journey to replace costly, friction-heavy SMS authentication with native cryptographic signing, reaching 50%+ adoption while cutting signing costs by ~50%.
- Resolved unpredictable transfer fees for business clients by analysing transaction data and redesigning pricing logic, reducing complaints by 70% and increasing revenue without requiring an engineering build.
- Led delivery of core business payment products with a 23-person cross-functional team across engineering, design, data and business, ensuring performance and reliability on a high-load platform processing €11–12B monthly.
- Drove stakeholder alignment across engineering, legal, compliance, cybersecurity and architecture to resolve regulatory and technical constraints and launch ML-based business matching and in-app cryptographic signing.

Process Transformation Manager, Fintech Division (March 2015 - July 2017)

- Led financial evaluation of AS-IS and TO-BE processes and drove two strategic initiatives: migrating clients to remote channels and optimising internal operations to support scalable product growth.
- Designed and implemented the bank's first unit cost methodology → reduced calculation time by 2 weeks, enabled transparent product-level profitability, and supported evidence-based pricing, piloting and performance tracking.
- Introduced Scrum-based product development across the SME segment → transformation scaled to 150 teams, shifting delivery from monthly releases to weekly cycles and significantly improving time-to-market and predictability.
- Initiated and independently designed the bank's enterprise-wide Agile operating model, governance framework and rollout plan, later adopted as the organisation-wide standard for product delivery.
- Launched Product Managers' School (30 participants) and conducted 10+ product trainings → enabled the bank to retrain over half of PMs internally, reducing hiring dependency and strengthening talent pipelines.
- Built Agile communities for Product Owners and Scrum Masters (15–40 participants): communication channels, in-house meetups and cross-company exchanges → unified delivery practices and accelerated knowledge sharing.
- Embedded modern product frameworks (Customer Development, Design Thinking, Lean Startup, Scrum and Kanban), reducing Time-to-market from weeks to days.

Early Career Alfa-Bank | VT24 | Trust Bank (2005 - 2014)

- Progressed through roles in sales, process optimisation, integration, and financial modelling across leading banks.
- Built a strong foundation in banking operations, business process optimisation, financial analysis, systems integration, and cross-functional delivery.

CO-PROFESSIONAL LEADERSHIP

Head of Product Lab, Plekhanov Russian University of Economics (October 2024 – present), Moscow, Russia

- Founded the university's first practice-based Product Lab, designing the concept and operating model.
- Created a structured collaboration framework with Alfa-Bank product teams → enabled students to work on real industry problems with measurable outcomes and implementation potential.
- Built a repeatable innovation pipeline (2 cohorts/year) → funnelled student concepts into bank pilots, including an AI-powered geo-analytics service now used in SME recommendations.
- Delivered a full educational cycle (seminars, case briefs, expert sessions, hackathons) → 1,000+ students reached, media visibility >15,000.
- Strengthened the bank's early-talent pipeline → 10 students hired into full-time roles; winning team integrated into product delivery.

EDUCATION

Bachelor's Degree in Computer Science and Software Engineering, Moscow Aviation University, 2005 - 2009

Studied Linguistics at the Russian University of Humanities, 2014-2016

CERTIFICATIONS and COURSES

- Product Management Program, Lean Startup, University of California, Berkeley, Haas School of Business, 2017
- Generative AI for Product Managers, IncGoPractice, Inc 2026
- Business Model Generation Workshop & Masterclass, Strategyzer, Berlin, Germany, 2018
- Data Driven Product Management Simulator, GoPractice, IncGoPractice, Inc 2019
- Lean Six Sigma Green Belt (ICGB), Moscow, Russia, 2010

SKILLS & OTHER

Hard Skills: Product Strategy · P&L Ownership · Product Monetization · Pricing · Subscription Models · Go-to-Market · Roadmap & Prioritization · AI & ML Product Development · Stakeholder Management · Product Leadership

Techniques: Customer Discovery · Experimentation & Hypothesis Testing · Data-Driven Decision Making · Cross-Functional Delivery · Product Discovery · Retention Analysis

Languages: English (C1, advanced) · French (B2) · Spanish (A2) · Hebrew (A1) · Russian (native)
